

LEGLER MEDIENSERVER

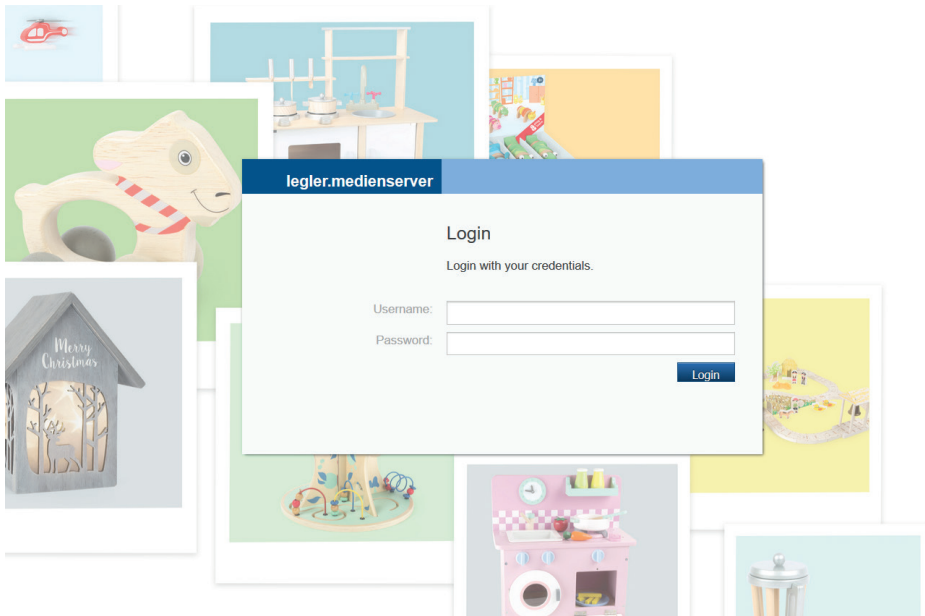

Welcome to the Legler media server.

You can download all picture data in various formats here.

We will explain how that works in this section.

If you have any further questions, please contact our customer service via email at service@legler-online.com or by telephone at +49 (0) 4221-97302-69

Please visit the following link <http://medienserver2.mdc.de/en/index/index/id/legler> and enter your login data that you received in an email from our media server.

You now have different ways to search for product pictures:

- You can search through the media server via product number.
- You can browse through the product pictures in our assortment.
- You can search using specific catalogue pages.
- You can download a .zip file with all catalogue pictures.

You can download our pictures in three different formats. You decide which format you need.

- The format **S** (small) is suitable for pictures in online shops. Since you don't use large data files for this purpose, select the smallest format.
- The format **M** is the middle resolution. If you want to show larger pictures of products in your online shop or if you need smaller product pictures on printed products, then this is the correct format for you.
- We recommend the format **L** (large) for all sorts of print products. This format has the highest resolution.

You'll find exact instructions on how to download our pictures on the following pages.

SEARCH WITH PRODUCT NUMBERS

You can also search through the media server with product numbers.

Simply enter the product number of the product you need in the search bar in the upper left corner of the page and press the Enter key. You will then see

an overview of all pictures that we have for that product.

Search (Results)

none selected

SEARCH THROUGH OUR ASSORTMENT

Do you want to see what kind of product pictures we have in a specific category?

You can do this under the „Search in Categories“

field on the left side. Click on the word

„Assortment“ and the assortment structure

that you already know from our website will

open. **NOTICE:** When you've clicked on a

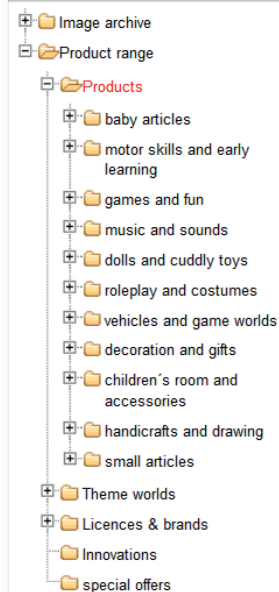

specific category, you will only search through

this category when you use the search bar on

the page. If you don't want this, simply click

the category button again. [Reset filters](#)

Search in categories

SEARCH WITH CATALOGUE PAGES

You've discovered a page in our catalogue and want all the photos from that page? No problem! This is possible on the left side of the page under „Catalogue Pages“. You then select our main catalog in the drop-down menu and enter the desired page number in the lower search bar. All pictures from that page will then be shown.

ALL PICTURES IN ONE PACKAGE

Need all the pictures found in the catalogue?

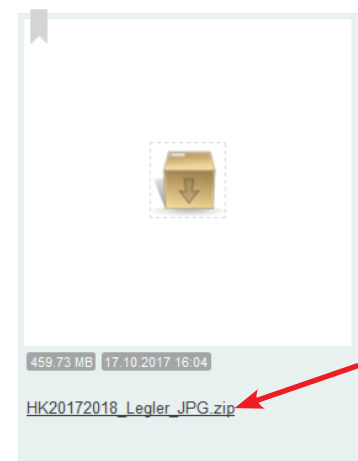

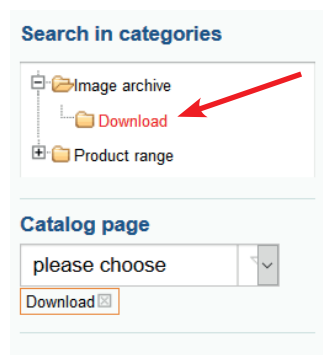

In that case, click on „Downloads“

underneath the „Search in Categories“

point and then click on the .zip file

shown. Your download will then start.

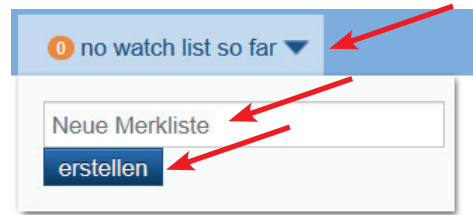

These pictures are exclusively recommended for online presentation.

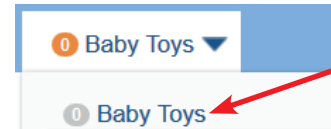

WHAT ARE WATCH LISTS?

Want to collect pictures from different themes or products and download them as one package? This is also not a problem. For that, we've got the watch lists.

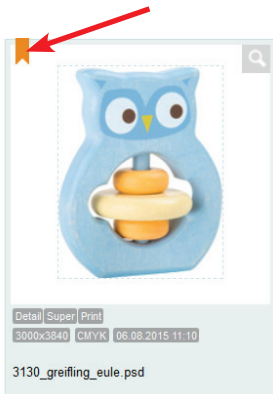

To create a watch list, click on the blue arrow next to the „no watch list yet“ tab in the upper bar. A field will appear in which you can name your watch list, e.g. „Baby Toys“, and then you click on the „Create“ button.

When you then click on your „Baby Toys“ list, you've activated it and can now collect pictures and put them in that list.

This works like this: search for your pictures like you normally do. To move pictures onto the selected list, click on the small gray flag by the upper left corner of the product picture. When this flag turns orange, it has been put on your selected watch list.

You can repeat this process with as many product pictures as you wish.

When you're finished with your selection, you can click on your watch list, which will display all the pictures you've selected thus far. On the left side, you will have the possibility to send this customized picture package to yourself via email or download all the pictures in the S(small), M(middle), or L(large) format.

A screenshot of a form with three sections: "Rename", "Send as mail", and "Download". The "Rename" section has a "New name" input field and a "Rename" button. The "Send as mail" section has an "E-Mail" input field, a "Send as email" label, and "Picture format" options (S, M, L). The "Download" section has "Picture format" options (S, M, L). Red arrows point to the "New name" input field, the "E-Mail" input field, and the "Picture format" options in the "Download" section.

Want to change the name of your watch list? Enter the new name and confirm by pressing the „Rename“ button. .

Do you want to **send all the pictures via email to download later**? Enter your email address in the proper field and send the pictures in the format you need. Simply click on the desired format and the email will be sent.

Do you want to simply just **download the pictures**? Then select the format you need. Click on the desired format and the download will begin.

A screenshot of a form with a "Delete" section containing a "Delete watch list" button. A red arrow points to the button.

If you no longer need your watch list, you can delete it by clicking on **Delete List**.
