

# Game ideas: FOR THE HOLIDAYS

## Packing suitcase

One begins to pack his suitcase, saying:

I pack my suitcase and take a hat with me.

The next one continues and says:

I pack my suitcase and take a hat and a scarf with me

.Again the next one continues and says:

I pack my suitcase and take a hat, a scarf and a jacket with me.

This continues as long as one of the player forgets one object to enumerate. Then the game is over and the other one has won.

## Schiffe versenken

Each player is hiding his ships by means of crosses on his own playing field. The opponent must now try to find out the correct coordinates in order to sink the ship. The ship is quite taken if all the individual coordinates are mentioned.

To keep a better overview each player records his crosses even when he has not taken the respective ship so that these coordinates could not be mentioned twice. The players play alternately. The aim is to sink all the ships of the opponent.

## CATEGORIES

For 2-8 players. Each player gets one of the shown grids. The categories are already shown. One player is now going through the Alphabet starting with the A called out, the rest non-spoken. The next player calls out „stop“ at any time he/she wants. The „thought“ letter is now the one the players will start the first round. All players try to fill in the grid with words that fit into the categories and start with the announced letter, e.g. a name with F = Freddy. The player who filled all categories first, calls out „stop!“ and all other players have to stop writing. Now you have to sum up the points scored with the filled in words.

### 5 points:

I have the same word as you!

### 10 points:

We have found different words for this category!

### 20 points:

Only one player was able to find a word for this category!
